

# Looking for the Road to Success?

Head for Vermont Tech in Williston.

## You Talked. We Listened.

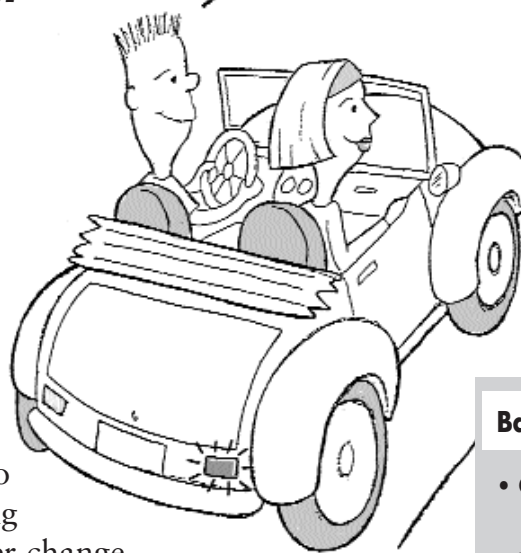

You asked for affordable technology programs close to home, so beginning in fall 2003, Vermont Technical College will offer eight technology-oriented degree programs at its Blair Park Campus in Williston.

## Open Access, Flexibility and Affordability.

These programs are open to all qualified students on a full- or part-time basis. Courses are offered both day and evening. And as one of the Vermont State Colleges, Vermont Tech offers exceptional value for your tuition dollar.

## Improve Your Career Prospects.

Vermont Tech graduates have the skills to succeed in today's highly competitive marketplace. That's why Vermont Tech has been able to maintain a 98% placement record for two decades. So whether you're just finishing high school, are employed and seeking additional study in your present field, or are contemplating a career change, talk to Vermont Tech.
