Student Name: ____________________________________________________________

I understand that the purpose of Math Science Upward Bound (MSUB) is to prepare participants to successfully complete a program of post-secondary education. Because family involvement and support are major contributing factors to student success, I commit to be involved in the following ways:

1) Keep myself and MSUB staff informed of my child’s progress in school.
2) Share my concerns about my child’s education with MSUB staff.
3) Encourage my child to attend MSUB activities and transport my child to VTC and other locations around Vermont for these activities.
4) Participate in MSUB events to which families are invited.
5) Support the MSUB staff in their efforts on behalf of my child.

I support the Math Science Upward Bound program and its staff, and I will make it a priority to support my child’s participation in the MSUB program.
